github.com/Ayomidemi

Front-End Developer with proven experience in helping companies create and maintain a better code base for reusability. Capable of continuous learning from senior developers while still nurturing junior developers. Experience in driving projects forward and facilitating projects from concept to launch. Passionate about learning and development with a desire to apply skills on a larger development team. Eager to tackle more complex problems and continue to find ways to maximise user efficiency.

WORK EXPERIENCE

Frontend Developer TechBeaver

03/2022 - Present

Remote

Achievements/Tasks

- Worked closely with a team of developers, engineers and designers using cutting edge technologies such as socket.io, s3 bucket, sanity.io, AWS, CI/CD environment setup and development, docker, JIRA, machine learning, remote proctoring, identity verification and much more.
- Worked on several projects relating to different sectors such as the health sector, HR sector, advertisement and marketing sector, business and administration sector while gaining vast experience with different companies and people.
- Migrated a multi-page user experience into a single page app which improved customer engagement by 8% using ReactJS.

Contact : Co-founder - Deolu Philip

Frontend Developer Peniel Day Foundation

08/2020 - 08/2022

Remote

Peniel day foundation is an NGO that sponsors children's education in Nigeria slums

Achievements/Tasks

- Worked closely with backend developers, UX designers and foundation's board members to meet several large scale project requirements and desired functionalities.
- Wrote and maintained an effective, clean, readable and reusable code base using ReactJS, integrated with APIs from the backend, debugging, animations and donation payment processes.
- Migrated the company from a WORDPRESS app to a fully deployed React app.
